

Hugo HADJUR, PhD

20-12-1995

Junior AI & Statistical Methodologist

PhD in computer science and artificial intelligence. Multicultural background from professional experiences in **France, Japan and the US**, involving **academic research, teaching** and working in the **industry**.

WORK EXPERIENCE

SINCE DEC. 2023
CDI

Junior AI & Statistical Methodologist at **Saryga** (FRANCE)

- Collaborate with clients to **understand their business needs and tailor AI solutions**
- Assist in developing **predictive models**, conducting data experiments, and providing actionable insights
- Stay informed about the latest **AI and statistical trends** to deliver **cutting-edge solutions** for clients

SEPT. 2020 - AUG. 2023
3-year CDD

PhD Candidate and Assistant Professor at **École normale supérieure de Lyon & aivancity** (FRANCE)

- PhD Research Topic: **Designing sustainable, autonomous, and energy efficient Internet of Things systems**, applied to smart beehives
- PhD under the advisorship of **Laurent Lefèvre** and **Doreid Ammar** (LIP-Avalon laboratory)
- Teaching courses: **advanced data analysis and visualization, data preprocessing and visualization** and coding for AI and data science (Python, Tableau)
- Head of online course platform [aivancityX](#)

SEP. 2019 - AUG. 2020
& OCT. 2018 - DEC. 2018
1-year CDD

Instructor & Researcher at **emlyon Business School** (FRANCE)

- Research: Connected beehives, bees' data analysis (**IoT, machine learning, computer vision**)
- Teaching: **Python programming bootcamp** and **business analyst toolbelt** (SQL, Excel, Tableau)

JAN. 2019 - SEP. 2019

8-month VIE

Data Analyst at **Schneider Electric**, Houston, TX (USA)

- Supported the business by building **reports/dashboards and KPIs** to monitor performance
- Conducted **database integration** to form practical recommendations
- **Communicated findings** and insights to cross-functional team members and management
- Tool used: **SQL, Tableau, Python**

OCT. 2017 - SEP. 2018

1-year exchange

Student Researcher at **Kyoto University's Ishii Lab** (JAPAN)

- Master's thesis: master board games thanks to **Reinforcement Learning** (Q-Learning, SARSA, Deep Reinforcement Learning)

MAY-SEP. 2017

4-month internship

Data Science Research Internship at **CiNet** (Center for Information and Neural Networks, Osaka, JAPAN)

- **Conducted research** about the links between **Twitter data**, human behavior and brain data
- **Analyzed large data sets** ($\approx 500,000$ Twitter users) thanks to **PCA, clustering & regression** techniques
- Worked in a **Japanese environment**

PROGRAMMING & SOFTWARE

PROGRAMMING:

Expert knowledge: **Python** (data analysis, visualization and deep learning: time series, computer vision and reinforcement learning), **SQL, Tableau, R**
Advanced: **Javascript (full-stack), Java, C, C++, MATLAB**
Experience using: **Rest APIs, Git**

DESIGN & TEXT:

LaTeX, Adobe Photoshop, Microsoft Office, Inkscape

QUALIFICATIONS

✓ "GRANDE ÉCOLE" DIPLOMA + PhD

2020-2023

PhD at **ENS de Lyon** (**LIP-Avalon** laboratory) & **aivancity**

The goal of this thesis is to develop and model Internet of Things (IoT) systems and services based on Artificial Intelligence (AI) to support beekeepers in their work and preserve bees while studying the efficiency of connected beehives that are autonomous, sustainable, distributed and operate under limited energy budget.

2017-2018

Exchange year at **Kyoto University's Graduate School of Informatics**

Alongside courses in English and Japanese, I worked toward my Master's thesis. This thesis proposes a reinforcement learning method applied to the game of bridge. The Q-Learning and SARSA techniques reach a level of play comparable to an intermediate human player.
— Classes in **English & Japanese** in the department of **social informatics: statistics, machine learning**

2015-2017

French "Grandes Ecoles": **Ensimag, Grenoble Institute of Technology** (equivalent: Master's Degree)

— Solid and rigorous skill set in **programming, advanced statistics, data mining, database manipulation** among others

2013-2015

Scientific preparatory classes at **CPP Grenoble** (equivalent: Bachelor's Degree)

— 2-year intensive university-level preparatory course to enter **highly competitive Ivy League engineering schools**

2007-2013

Middle school and high school in Tokyo (4 years at **LFIT**) and in Singapore (1 year at **LFS**)

— Scientific baccalaureate with highest honours (French school)
