Since 2023, I work with **biostatistics** and **AI applied research** projects for **pharma** clients. I **write and co-author scientific papers**. I have a **PhD** in informatics with **ENS de Lyon** with strong dominance in **AI**, and **NLP** experience.

WORK EXPERIENCE

SINCE DEC. 2023

Permanent

SARYGA
STATISTICS & METHODOLOGY

AI & STATISTICAL METHODOLOGIST AT **Saryga** (FRANCE)

— **Tech projects:** semantic analysis using LLMs, zero-shot text classification, paraphrase mining; development of R Shiny web app to identify targets using Multi-Criteria Decision-Making methods

— **Biostatistics and Pharma projects:** predictive biomarker cutoff selection methods (writing scientific paper); survival analysis for PDX; quantitative decision-making methods at the portfolio level; implementation and simulation of PoC multi-arm trials, optimization of sample size

SEPT. 2020 - AUG. 2023

3-year contract

ENS DE LYON

aivancity

PARIS-CACHAN

PHD CANDIDATE AND ASSISTANT PROFESSOR AT **École normale supérieure de Lyon** AND **aivancity** (FRANCE)

— PhD Research Topic: **Designing sustainable, autonomous, and energy efficient Internet of Things systems, applied to smart beehives**

PhD under the advisorship of **Laurent Lefèvre** and **Doreid Ammar** (LIP-Avalon laboratory)

— Teaching: **advanced data analysis and visualization, data preprocessing and visualization** and **coding for AI and data science** (Python, Tableau)

— **Intern supervision:** connected beehives deployment & data analysis

— Head of online course platform **aivancityX**

SEP. 2019 - AUG. 2020
& OCT. 2018 - DEC. 2018

1-year contract

INSTRUCTOR & RESEARCHER AT **emlyon Business School** (FRANCE)

— Research: Connected beehives, bees' data analysis (**IoT, machine learning, computer vision**)

— Teaching: **Python programming bootcamp** and **business analyst toolbelt** (SQL, Excel, Tableau)

JAN. 2019 - SEP. 2019

8-month contract

DATA ANALYST AT **Schneider Electric**, HOUSTON, TX (USA)

— Supported the business by building **reports/dashboards and KPIs** to monitor performance

— Conducted **database integration** to form practical recommendations

— **Communicated findings** and insights to cross-functional team members and management

— Tool used: **SQL, Tableau, Python**

OCT. 2017 - SEP. 2018

1-year exchange

STUDENT RESEARCHER AT **Kyoto University's Ishii Lab** (JAPAN)

— **Master's thesis:** master board games thanks to **Reinforcement Learning** (Q-Learning, SARSA, Deep Reinforcement Learning)

MAY-SEP. 2017
4-month internship

DATA SCIENCE RESEARCH INTERNSHIP AT **CiNet** (Center for Information and Neural Networks, Osaka, JAPAN)

— **Conducted research** about the links between **Twitter data**, human behavior and brain data

— **Analyzed large data sets** ($\approx 500,000$ Twitter users) thanks to **PCA, clustering & regression** techniques

— Worked in a **Japanese environment**

PROGRAMMING & SOFTWARE

PROGRAMMING:	Python (PyTorch, Hugging Face Transformers, NumPy, Pandas, scikit-learn, Natural Language Toolkit NLTK), R, C, C++, SQL, Git
--------------	---

TECH EXPERIENCE:	Large Language Models (LLMs), Transformers, Natural Language Processing (NLP), Reinforcement Learning (RL), Computer Vision, Diffusion Models, Model Optimization
------------------	--

DESIGN & TEXT:	L^AT_EX, Adobe Photoshop, Microsoft Office, Inkscape
----------------	---

2020-2023		PhD at ENS de Lyon (LIP-Avalon laboratory) & aivancity Develop and model Internet of Things (IoT) systems and services based on Artificial Intelligence (AI) to support beekeepers in their work and preserve bees while studying the efficiency of connected beehives that are autonomous, sustainable, distributed and operate under limited energy budget.
2017-2018		Exchange year at Kyoto University's Graduate School of Informatics Alongside courses in English and Japanese, I worked toward my Master's thesis. This thesis proposes a reinforcement learning method applied to the game of bridge. The Q-Learning and SARSA techniques reach a level of play comparable to an intermediate human player. — Classes in English & Japanese in the department of social informatics: statistics, machine learning
2015-2017		French “Grandes Ecoles”: Ensimag, Grenoble Institute of Technology (equivalent: Master's Degree) — MMIS specialization: programming, advanced statistics, data mining, database manipulation
2013-2015		Scientific preparatory classes at CPP Grenoble (equivalent: Bachelor's Degree) — 2-year intensive university-level preparatory course to enter highly competitive Ivy League engineering schools
2007-2013		Middle school and high school in Tokyo (4 years at LFIT) and in Singapore (1 year at LFS) — Scientific baccalaureate with highest honours (French school)
